

**STOP INSURANCE SCHEMES!**

**SUPPORT HB 946**

**The Problem:** Too often, insurance companies swoop in and try to settle claims on the cheap moments after a wreck. They call the victim, offer a settlement, and ask them to accept it over the phone. Victims may not know the full extent of damages or medical costs. The court case *Gilbert v. Fitz* makes oral recorded settlement agreements enforceable, giving insurance companies too much power.

**The Solution:** HB 946 by Rep. Cassandra Garcia Hernandez prohibits the use of oral releases, telling insurance companies to **put releases in writing.**

**END THE INSURANCE VULTURE CULTURE!**

**SUPPORT HB 946**
